Why did you create your project?

Tell me about the software you used? Why was it the most suitable for your project?

Describe the steps to create your project. (What did you do?)

What was the easiest part?

What was the most difficult part?

If you did this project again, what would you do differently?

Did you use any material that needed copyright permission?  
Show me your citations.

	Excellent	Above Average	Average	Below Average
Overall impression of project				
Knowledge of software/Hardware				
Permissions/Citations				
Originality				
Clarity/Effectiveness				
Level of difficulty

AREA	1 None	2 Some	3 Expands	4 Mastery	Score/Weight
<b>Presentation</b> Did the student(s) demonstrate a solid understanding of the software for project development?	No understanding of the software for project development.	Some understanding of the basic use of the software for project development.	Competence in the use of software for project development.	Mastery in the use of software for project development.	_____ X 3 =
<b>Documentation</b> Did the student follow the notebook guidelines?	No documentation.	Some required documentation included, but not all.	Basic required documentation included (title page, introductory page, instructions page, project samples, content bibliography).	In-depth documentation of all required documents presented in a neat and organized notebook.	_____ X 1 =
<b>Software Usage</b> Was the software suitable for the project?	Software used was not appropriate for the project.	Some of the software used was appropriate for the project.	Software used was appropriate and enhanced the project.	Mastery in the choice and use of software to enhance the project.	_____ X 3 =
<b>Composition</b> How effectively did the student use the principles of composition?	No organization or arrangement apparent with the elements of the picture.	The image(s) are shot in a plain manner, distracting from the composition and leaving image stagnant. Backgrounds are busy or distract from the focus of the image.	Image composition has potential, but other angles, focal lengths and positioning of subjects will improve image.	Strong composition, images are strong because of layout and placement of camera to model.	_____ X 5 =
<b>Image Quality</b> How clear and focused is the image?	All image(s) are out of focus.	Some images are slightly out of focus.	Good quality images with proper exposure.	Outstanding image quality, with proper exposure.	_____ X 5 =
